

Seif Jlassi

FULL-STACK DEVELOPER · TOOLS & INTERACTIVE WEB

Dortmund, Germany · seifjlassi00@gmail.com · linkedin.com/in/seif-jlassi · github.com/Seifpetit · seifpetit.github.io/Portfolio-room

---

Student at TU Dortmund, open to working student roles (up to 80 h a month). I build tools that make complex systems easy to see: a map for unfamiliar code, an AI ad workspace, and a portfolio room with its own editor.

PROJECTS

Solo developer · Code Atlas

- Static analysis that maps Facebook's React repo into a dependency graph in 4 minutes.
- Risk and pressure signals in a React Flow UI, with no AI involved.

Solo developer · PRISM

- AI workspace turning product data into audiences, angles, offers and ad sets.
- Used by an e-commerce seller for his ad campaigns; every AI step is logged.

Solo developer · Seif's Room

- Pixel-art portfolio with canvas rendering, pathfinding and a visual zone editor.
- 4-language CMS with conflict-safe saves and one-click Git publishing.

EDUCATION

B.Sc. Computer Science, 8th semester · TU Dortmund 2023 – 2028

SKILLS

Frontend: JavaScript, TypeScript, React, React Flow, Canvas 2D, HTML, CSS

Backend & AI: Node.js, Python, PostgreSQL, OpenAI / Claude APIs

Tools: Git, GitHub, GitHub Pages

LANGUAGES

Arabic (Tunisian), French, English, German (B2-C1)
